

# PPL(A) THEORETICAL KNOWLEDGE COURSE

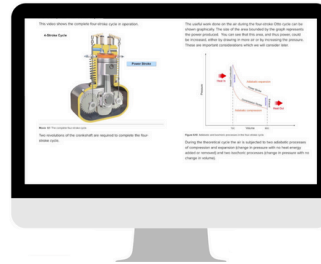

---

**100% ONLINE  
SIT EXAMS IN ANY EU STATE**

# Online Pilot Theory Training

## ABOUT US

Peak Aviation Academy was founded as an EASA Training Organisation (DTO) in 2020 in the Republic of Bulgaria. Our team comprises active professional pilots and is guided by one goal:

**"To provide the highest quality and the most modern training for the private pilots in Europe."**

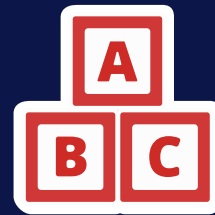

The training materials and content in the PPL (A) theoretical knowledge course are based on those of international content providers. We develop our own resources in-house as well. These are well adapted to the local laws and particularities of aviation in different European countries.

# THE PRIVATE PILOT PATHWAY 100% ONLINE PPL THEORY COURSE

## What Makes Us different?

### Aviation Basics Course

Aviation Fundamentals, Maths & Physics  
15 Video Lectures & 5 Quizzes  
Seamless Transition To The Core Course

## PPL(A) passed in less than 2 months

I started my preparation for the PPL(A) 2 months ago without any prior experience in aviation.

Peak Aviation was the perfect choice for me because of the:

- flexibility of the online platform and software to learn at your pace
- great content with visuals and mnemonics to help you retain the knowledge
- most importantly their instructors were quick to answer and very caring in addressing and clarifying any doubt on both the process and the content itself. You could feel they cared about you succeeding.

## Fast and very professional

I'm on final stages to become pilot

It was very fast response for my request

I strongly recommend them to anyone

I am writing today on my way back home from my exam of all 9 subjects passed in one sit with a 95% weighted average. Two months ago I was not at sure it was doable, but Peak supported me step by step in all I needed.

I am excited to recommend them to other fellow wanna be pilots! Keep on the great work.

## True professionals

I'm in the process of becoming a professional pilot and sought answers from industry professionals.

Emil was gracious enough to set up a meeting. He not only provided context for my questions but also encouraged me to continue my education.

I strongly recommend them to anyone

Date of experience: May 31, 2023
